## SIMPLE ELEGANCE

The JELD-WEN IWP® Exterior Folding Door System is a new concept in patio doors. It combines the style, customization and elegance of a classic French door, with the updated benefits and features of a sliding door. The IWP folding door system operates “accordion style” - each door section slides on an overhead track and folds up neatly against one another to allow for full access to the indoors or outdoors. With a maximum width of up to 36 feet (doors opening from the center with a properly engineered header) and available heights of up to 8 feet, the IWP folding door system provides tremendous light and outdoor viewing opportunities, even when closed.

Whether you have a traditional or contemporary style home, IWP offers a folding door style to match any home architecture. The IWP folding door system is available in both IWP Aurora™ Custom Fiberglass and beautiful hardwood doors. IWP will also craft your dream door, a folding door system designed to reflect your individual style, from a unique door design to truly custom glass. If you can imagine it, we can create it.

## LET THE OUTSIDE IN

The IWP® Exterior Folding Door System has been designed to keep the worst weather at bay. The doors are fixed through the head directly into the lintel, which holds the doors and mechanism in place. The free-flowing doors are hung on pre-fitted wheeled carrier sets, allowing for smooth operation. The doors simply slide and fold against each other into the corner of the frame and are available in several folding configurations, depending on the opening width, of 3, 4, 5 and 6 leaf.

The IWP Folding Door System is available with both hardwood and JELD-WEN's award-winning IWP Aurora™ Custom Fiberglass doors. It is virtually impossible to tell IWP Aurora doors from a real wood door, yet because these doors are made from fiberglass, they are exceptionally low maintenance. Both wood and fiberglass options are available in a wide variety of styles and finishes.

IWP Custom Fiberglass Aurora doors, engineered to withstand extreme weather while looking like real wood are offered in a choice of four woodgrains - clear and knotty alder, oak and mahogany. Each woodgrain is offered in a variety of prefinished colors. IWP Custom Fiberglass Aurora Doors have a lifetime warranty.\*

IWP hardwood door systems are offered in clear and knotty alder, cherry, oak, genuine mahogany and walnut; all in a variety of prefinished stain colors with elegant decorative glass designs. IWP Exterior Hardwood Doors have a 5-year warranty.\*

\* For a complete warranty, visit [www.jeld-wen.com](http://www.jeld-wen.com)

Note: Variance in photography and printing may cause finish colors shown in this brochure to vary from actual finish.

## DOOR CONFIGURATIONS

The IWP Folding Door System is a truly customizable system, allowing for numerous configurations. Standard sizes range from two doors to six doors - matching door and frame widths. Special-order options include door heights of up to 8 feet and widths up to 36 feet (doors opening from the center with a properly engineered header).

## STANDARD SIZE GUIDE

Width	Number of Doors	Door Configuration
6'	2	2L or 2R
9'	3	2L1R or 2R1L
9'	3	2L1R or 2R1L
12'	4	2L2R, or 3L1R, or 1L3R
15'	5	4L1R or 1L4R, or 3L2R, or 2L3R
18'	6	5L1R, or 1L5R, or 4L2R, or 2L4R, or 3L3R

## HARDWARE STYLES

For security, the IWP folding door system features key lockable drop bolts, night latch and mortise lock - or a hook latch, depending on the configuration style. Standard hardware features a brushed stainless steel finish, other optional finishes are available. The system sill is a low level bronze anodized combination for ease of access.
